J. Clement McCulloch,

Donald W. Mills,

Howard N. Reed

## SUBJECTS • SUJETS

## Abnormalities:

Neurologic abnormalities associated with persistent hyperplastic primary vitreous, Marshman WE et al, 17-22

## Abnormalities, multiple:

Neurologic abnormalities associated with persistent hyperplastic primary vitreous, Marshman WE et al, 17-22

## Acquired immunodeficiency syndrome:

Corneal endothelial deposits in patients with HIV infection or AIDS: epidemiologic evidence of the contribution of rifabutin, Holland SP et al, 204-9

Needle-stick injuries and HIV infection [E], Hurwitz JJ, 189-90

Needle-stick injuries and HIV infection: a surgeon's personal experience and review of postexposure prophylaxis, Hurwitz JJ et al, 195-203

## Acute posterior multifocal placoid pigment epitheliopathy:

Acute posterior multifocal placoid pigment epitheliopathy associated with retinal vasculitis, neovascularization and subhyaloid hemorrhage, De Souza S et al, 343-5

## Administration, topical:

Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), theo Schwartzenberg GWS et al, 93-4

Glaucoma secondary to topical use of steroid cream, theo Schwartzenberg GWS et al, 222-5

## Adult:

Fresnel membrane prisms: clinical experience, Flanders M et al, 335-40

Age-related macular degeneration: See Macular degeneration

## Adult:

Fresnel membrane prisms: clinical experience, Flanders M et al, 335-40

Age-related macular degeneration: See Macular degeneration

**AIDS:** See Acquired immunodeficiency syndrome

**Allergy:** See Hypersensitivity

**Alteplase:** Postoperative orbital hemorrhage following thrombolysis for acute myocardial infarction, Ho Yuen V et al, 33-5

**Amaurosis fugax:** See Blindness

**Analgesics, narcotic:** Risk factors for pain and nausea following retinal and vitreous surgery under conscious sedation, Mandelcorn M et al, 281-5

**Angiolymphoid hyperplasia with eosinophilia:** Recurrent orbital angiolymphoid hyperplasia with eosinophilia (Kimura's disease), Ferri M et al, 290-3

**Angle-closure glaucoma:** See Glaucoma, angle-closure

**Aniridia:** A novel PAX6 frameshift mutation in a kindred from Atlantic Canada with familial aniridia, Gupta SK et al, 330-4

**Anorexia:** Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), theo Schwartzzenberg GWS et al, 93-4

**Anterior eye segment:** Primary cysts in the iridociliary sulcus: ultrasound biomicroscopic features of 210 cases, Fine N et al, 325-9

**Antibodies, anticardiolipin:** Primary antiphospholipid syndrome and neovascular glaucoma, Liu E et al, 349-52

**Antibodies, antiphospholipid:** Primary antiphospholipid syndrome and neovascular glaucoma, Liu E et al, 349-52

**Anticardiolipin antibodies:** See Antibodies, anticardiolipin

**Anti-inflammatory agents, non-steroidal:** Use of topical steroid therapy in the management of non-necrotizing anterior scleritis, McMullen M et al, 217-21

**Antiphospholipid antibodies:** See Antibodies, antiphospholipid

**Applanation tonometry:** See Tonometry

**Aqueous humor:** Delayed, recurrent hypotonous maculopathy following aqueous suppressant therapy in pseudophakia, Goela A et al, 395-7

**Aqueous humor suppressants:** See Drug therapy  
See also Glaucoma

**Asian Canadians:** Age-related macular degeneration in Chinese-Canadians, Damji KF et al, 266-71

**Assessment of health care needs:** See Health services needs and demand

**Astigmatism:** Photorefractive keratectomy with an ablatable mask and rail system for simultaneous correction of myopia and astigmatism: preliminary results, Culp GJ et al, 9-16

**Atopic hypersensitivity:** See Hypersensitivity, immediate

**Bacterial endophthalmitis:** See Endophthalmitis

**Balloon dilatation:** Direct carotid-cavernous fistula following carotid endarterectomy, Ou RJ et al, 401-6

**Blindness:** The prognosis of amaurosis fugax and hemispheric transient ischemic attacks, Nguyen TN et al, 210-6

**Blood circulation, collateral:** See Collateral circulation

**Branch retinal artery occlusion:** See Retinal artery occlusion

**Calcification, pathological:** See Calcinosis

**Calcinosis:** Presumed calcified retinal cavernous hemangioma, Almassary MA et al, 294-5

**Canadian Journal of Ophthalmology:** Fifty ways to leave the cover [E], MacInnis BJ, 253-4  
The years ahead [E], MacDonald IM, 315-6

**Carbonic anhydrase inhibitors:** Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), theo Schwartzzenberg GWS et al, 93-4

**Carotid arteries:** Direct carotid-cavernous fistula following carotid endarterectomy, Ou RJ et al, 401-6

**Carotid artery diseases:** Branch retinal artery occlusion: angiographic demonstration of increased retinal blood flow after external carotid endarterectomy, Shah GK et al, 36-9

**Carotid-cavernous fistula:** See Fistula

**Carotid endarterectomy:** See Endarterectomy, carotid

**Cataract:** The Collaborative Normal-Tension Glaucoma Study and some of its lessons [E], Drance SM, 1-6

**Cataract extraction:** Delayed, recurrent hypotonous maculopathy following aqueous suppressant therapy in pseudophakia, Goela A et al, 395-7

**Cavernous sinus:** Congenital cavernous sinus syndrome in a child with neurofibromatosis type 2, Yu CBO et al, 101-3

**Direct carotid-cavernous fistula:** Direct carotid-cavernous fistula following carotid endarterectomy, Ou RJ et al, 401-6

**Cerebral ischemia, transient:** The prognosis of amaurosis fugax and hemispheric transient ischemic attacks, Nguyen TN et al, 210-6

**Chalazion:** Embedded corneal foreign body in a child? Try a chalazion curette, Clarke WN, 394

**Chemoprophylaxis:** See Drug therapy

**Child:** Embedded corneal foreign body in a child? Try a chalazion curette, Clarke WN, 394

**Chinese Canadians:** See Asian Canadians

**Choroid diseases:** Acute posterior multifocal placoid pigment epitheliopathy associated with retinal vasculitis, neovascularization and subhyaloid hemorrhage, De Souza S et al, 343-5

Age-related macular degeneration in Chinese-Canadians, Damji KF et al, 266-71

Bilateral subfoveal choroidal neovascularization in Turner's syndrome: Coincidence or consequence?, Beatty S et al, 346-8

Delayed, recurrent hypotonous maculopathy following aqueous suppressant therapy in pseudophakia, Goela A et al, 395-7

**Choroid neovascularization:** See Choroid diseases

See also Neovascularization

**Choroidal folds:** See Choroid diseases

**Choroidal neovascularization:** See Neovascularization

See also Choroid diseases

**Ciliary body:**

Delayed, recurrent hypotonous maculopathy following aqueous suppressant therapy in pseudophakia, Goela A et al, 395-7

**Clinical trials:**

Determining the clinical significance of randomized clinical trials: a review of the efficacy of laser photocoagulation, Sharma S, 46-9

**Closed-angle glaucoma:** See Glaucoma, angle-closure

**Collateral circulation:**

Branch retinal artery occlusion: angiographic demonstration of increased retinal blood flow after external carotid endarterectomy, Shah GK et al, 36-9

**Complications:** See Postoperative complications

**Complications, intraoperative:** See Intraoperative complications

**Complications, postoperative:** See Postoperative complications

**Computed tomography:** See Tomography, x-ray computed

**Congenital defects:** See Abnormalities

**Conjunctiva:**

Recurrent orbital angiolympoid hyperplasia with eosinophilia (Kimura's disease), Ferri M et al, 290-3

**Conjunctivitis, allergic:**

Ocular complications of vernal keratoconjunctivitis, Tabbara KF, 88-92

**Conscious sedation:**

Risk factors for pain and nausea following retinal and vitreous surgery under conscious sedation, Mandelcorn M et al, 281-5

**Controlled clinical trials, randomized:** See Randomized controlled trials

**Cornea:**

Central corneal thickness in low-tension glaucoma, Emara BY et al, 319-24

Embedded corneal foreign body in a child? Try a chalazion curette, Clarke WN, 394

Update in cornea and external disease: solving the mystery of "sands of the Sahara" syndrome (diffuse lamellar keratitis), Holland SP, 193-4

**Corneal foreign body:** See Eye foreign bodies

See also Cornea

**Corneal thickness:** See Cornea

**Corticosteroids:**

*Saccharomyces* keratitis and endophthalmitis, Kirsch LS et al, 229-32

**Counseling:**

Update in genetics: genetic eye diseases and the ophthalmologist, MacDonald IM, 69-73

**Cream:** See Administration, topical

**Critical appraisal:**

Determining the clinical significance of randomized clinical trials: a review of the efficacy of laser photocoagulation, Sharma S, 46-9

**Cryptophthalmos:** See Eyelid diseases

**Curette:** See Equipment and supplies

**Cysts:**

Primary cysts in the iridociliary sulcus: ultrasound biomicroscopic features of 210 cases, Fine N et al, 325-9

**Cytomegalovirus retinitis:**

Corneal endothelial deposits in patients with HIV infection or AIDS: epidemiologic evidence of the contribution of rifabutin, Holland SP et al, 204-9

**Dacryocystorhinostomy:**

Lacrimal obstruction due to a nasal osteoma, Hurwitz JJ et al, 296-8

**Dementia:**

Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), thoe Schwartzenberg GWS et al, 93-4

**Depression:**

Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), thoe Schwartzenberg GWS et al, 93-4

**Determination of health care needs:** See Health services needs and demand

**Diagnostic imaging:**

Primary cysts in the iridociliary sulcus: ultrasound biomicroscopic features of 210 cases, Fine N et al, 325-9

**Diffuse lamellar keratitis:** See Keratitis

**Diplopia:**

Fresnel membrane prisms: clinical experience, Flanders M et al, 335-40

**Dorzolamide:**

Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), thoe Schwartzenberg GWS et al, 93-4

**Drug administration routes:**

Management of submacular hemorrhage with intravitreal sulfur hexafluoride: a pilot study, Daneshvar H et al, 385-8

**Drug administration, topical:** See Administration, topical

**Drug therapy:**

Delayed, recurrent hypotonous maculopathy following aqueous suppressant therapy in pseudophakia, Goela A et al, 395-7

Needle-stick injuries and HIV infection [E], Hurwitz JJ, 189-90

Needle-stick injuries and HIV infection: a surgeon's personal experience and review of postexposure prophylaxis, Hurwitz JJ et al, 195-203

Use of topical steroid therapy in the management of non-necrotizing anterior scleritis, McMullen M et al, 217-21

**Drug toxicity:**

Anorexia, depression and dementia induced by dorzolamide eyedrops (Trusopt), thoe Schwartzenberg GWS et al, 93-4

**Editor-in-chief:** See Publishing

**Education, medical:**

The future of the clinical scientist [E], Drance SM, 373-7

**Endarterectomy, carotid:**

Branch retinal artery occlusion: angiographic demonstration of increased retinal blood flow after external carotid endarterectomy, Shah GK et al, 36-9

Direct carotid-cavernous fistula following carotid endarterectomy, Ou RJ et al, 401-6

**Endophthalmitis:**  
Bacterial endophthalmitis associated with an intruded suture 15 years after scleral buckling surgery, Enzenauer RW et al, 398-400

Management of posterior segment intraocular foreign bodies: 14 years' experience, De Souza S et al, 23-9

*Saccharomyces* keratitis and endophthalmitis, Kirsch LS et al, 229-32

Visual outcome following penetrating globe injuries with retained intraocular foreign bodies, Lam SR et al, 389-93

**Endotoxins:**  
Update in cornea and external disease: solving the mystery of "sands of the Sahara" syndrome (diffuse lamellar keratitis), Holland SP, 193-4

**Enucleation:** See Eye enucleation

**Equipment and supplies:**  
Embedded corneal foreign body in a child? Try a chalazion curette, Clarke WN, 394

**Ethnic groups:**  
Age-related macular degeneration in Chinese-Canadians, Damji KF et al, 266-71

**Evidence-based ophthalmology:** See Randomized controlled trials

**Excimer laser:** See Lasers

**Exfoliation syndrome:**  
Familial occurrence of pseudoexfoliation in Canada, Damji KF et al, 257-65

**External carotid artery occlusion:** See Carotid artery diseases

**External carotid endarterectomy:** See Endarterectomy, carotid

**External compression:** See Lacrimal duct obstruction

**Eye:**  
Ocular Munchausen's syndrome, a costly disorder, Dhanda D et al, 226-8

**Eye abnormalities:**  
Neurologic abnormalities associated with persistent hyperplastic primary vitreous, Marshman WE et al, 17-22

Surgical correction for complete cryptophthalmos: case report and review of the literature, Ferri M et al, 233-6

**Eye diseases:**  
Primary cysts in the iridociliary sulcus: ultrasound biomicroscopic features of 210 cases, Fine N et al, 325-9

Update in genetics: genetic eye diseases and the ophthalmologist, MacDonald IM, 69-73

**Eye enucleation:**  
Drilling the synthetic hydroxyapatite orbital implant, Jordan DR et al, 30-2

Sympathetic ophthalmia: a case report and review of the need for prophylactic enucleation, Bellan L, 95-8

**Eye foreign bodies:**  
Embedded corneal foreign body in a child? Try a chalazion curette, Clarke WN, 394

Management of posterior segment intraocular foreign bodies: 14 years' experience, De Souza S et al, 23-9

Siderosis bulbi with an undetectable intraocular foreign body, DeAngelis D et al, 341-2

Visual outcome following penetrating globe injuries with retained intraocular foreign bodies, Lam SR et al, 389-93

**Eye hemorrhage:**  
Postoperative orbital hemorrhage following thrombolysis for acute myocardial infarction, Ho Yuen V et al, 33-5

**Eye injuries:**  
Ocular Munchausen's syndrome, a costly disorder, Dhanda D et al, 226-8

**Eye injuries, penetrating:**  
Management of posterior segment intraocular foreign bodies: 14 years' experience, De Souza S et al, 23-9

Siderosis bulbi with an undetectable intraocular foreign body, DeAngelis D et al, 341-2
